Pillar 0 — Onboarding: Screen Inventory

Cross-referenced against docs/PILLAR_ONBOARDING_STRATEGY.md (locked 7-screen + 6.5 sequence) and TICKETS.csv. Status column tracks design work only — all engineering tickets below are Not Started regardless.

#	Screen	Design Status	Copy Ticket	Engineering Ticket(s)	Notes / Risks
1	Welcome	⬜ Not designed	None drafted	T-060 (shipped, marked complete — verify)	Value prop + single Continue. 3–5s target.
2	Education	⬜ Not designed	T-101 — Not Started (flagged: current ✅/❌ bullet copy needs rewrite around "We Translate Across Time", not a feature checklist)	T-060	Sets formation-tool mental model, not productivity app.
3	Intent	⬜ Not designed	T-102 — Not Started	T-111 (schema for spiritualIntent[])	Multi-select, 5 options. Risk: feels like a quiz — keep invitational.
4	Rhythm	⬜ Not designed	T-103 — Not Started (flagged: drop "no guilt, no streaks" negation, rewrite affirmative-only)	T-111 (captureRhythm enum)	Feeds Pillar 8 notification tuning later, not immediately.
5	Account	⬜ Not designed	T-104 — Not Started	T-109 (self-service signup), T-115 (abuse protection), T-113 (dead refresh token)	Password strength indicator, friendly duplicate-email error.
6	Privacy	⬜ Not designed	Drafted in strategy doc (server-side encryption framing, updated Jul 22, 2026)	T-096 (retention policy + legal review of this exact copy)	Explicit ack button, not passive acceptance. Legal review still open.
6.5	Notification Permission	⬜ Not designed	T-105 — Not Started	T-086 (Settings notification prefs, cross-pillar)	Opt-out default. Declining must hard-disable Pillar 8 push, not just this screen.
7	First Capture	⬜ Not designed	Drafted in strategy doc	T-112 (Navigation Gate — mandatory, no skip), T-110 (7 views + Coordinator), T-116 (funnel analytics)	🔒 MANDATORY — cannot bypass. Blocks Today/Journal/Settings until captured.

⚠ Open before designing: P0 Notion comments #5, #6, #7 — MEMORY.md's last Blocking Items entry marks these unresolved, but flags that file as possibly stale. Verify current status in Notion before finalizing Screens 3, 5, or 6 (the comments concern intent granularity, account timing, and dormant-account handling).

📌 **Reference note: Untold (added Jul 28, 2026)**

Untold is a visual/tonal inspiration for Onboarding — warm gradient carousel, intent-as-multi-select mechanics — not a spec to port directly. Confirmed with Kell: where Untold's flow conflicts with locked decisions below, Dwellable's locked decision wins, no exception.

✅ Borrow: warm/personal visual tone; multi-select "select all that apply" mechanics for Screen 3 (Intent).
🚫 Do NOT borrow: (1) early account creation before Intent — Dwellable locks Account at Screen 5, after Intent + Rhythm; (2) skippable first capture ("Can't journal now?") — Dwellable's Screen 7 has zero skip path, locked via Pillar 8 Stage-B dependency.

Welcome to dwellable

Before we begin, what should we call you?

Nice to meet you {Jordan}!

9:41

Did you know that God may be more present in your story than you realize?

And did you know that every encounter with God is meant to prepare you for what comes next?

tap to continue →

9:41

But what happens if we forget to document our God moments or lose the learnings of that encounter?

we may miss out on what comes next...what we fail to steward cannot be sustained

Alright Jordan, imagine you're on a walk. And the Lord whispers to you....

"You are my child and I love you very much"

Afterward, a wave of peace overwhelms you. What would you do next?

Most of the time, you probably aren't carrying your pen and journal while on a walk.

And your audio notes app is great at documenting your moments, but when was the last time you took a moment to listen to those recorded encounters?

So instead, like many of us, you'd tell God "thank you for that confirmation"...

...and keep walking. Which is totally fine...most of us do that.

But....Within days, that moment is gone.

THE MEANING

Here's how Dwellable helps you steward each God encounter, whether on the go or at home.

THE TURN

Whenever you sense God is giving you a revelation....you can voice (or type out) that experience...as you are encountering it

REC 0:08

"I felt so much peace on Riverside Drive....."

Voicing on the walk...

Voice it. Right there. Ten seconds.

THE CONVERSATION

Once you capture your moment, we will help you process what took place

"I felt so much peace on Riverside Drive today while walking and God spoke to me regarding..."

DWELLY

That is great, Kell. What are you feeling most peace about right now?

Someone is helping you process through this moment, not just logging it.

THE JOURNAL ENTRY

After you've processed your moment, a journal entry is created to ensure the impact of the moment never fades

PEACE

TRAIL WALK

Peace on Riverside Drive

An unexpected wave of calm broke through the noise of the day on Riverside. Sitting with the thought, I realized the peace wasn't the absence of chaos, but an active trust in His presence.

"Peace I leave with you; my peace I give to you." — John 14:27

Not just remembered. Transformed.

THE PAYOFF

Lastly, imagine that you are suddenly struck with a sense of fear about the future

Moments you've stewarded

A LETTER FROM YOUR STORY

Jordan, I know that you are worried about the future, giving the challenges you've had today. But keep in mind, God has been giving you a deep sense of peace over the last several months. Trust God; He's faithful to you.

Your story with God.

every God encounter is now woven into your story...as a reminder for the future

What feels closest right now?

Choose anything that feels true. You can select more than one.

- [x] I want to notice God more
- [ ] I need help processing a moment
- [ ] I want to remember what God has done
- [ ] I'm discerning what God may be saying
- [x] I want to build a rhythm of reflection

Thank you. I'll keep that in mind as we reflect together.
